

Jensen Quality Mid Cap Fund
(formerly, the Jensen Quality Value Fund) and
Jensen Global Quality Growth Fund
(each, a “Fund,” and together, the “Funds”)
Each a series of Trust for Professional Managers (the “Trust”)

Supplement dated November 15, 2024
to the Prospectus, Summary Prospectus and
Statement of Additional Information, each
dated September 30, 2024, as supplemented

At a special joint meeting of shareholders held on November 1, 2024, shareholders of record of each Fund approved a new investment advisory agreement (the “New Advisory Agreement”) between the Trust on behalf of each of the Funds, and Jensen Investment Management, Inc. (the “Adviser”), the Funds’ investment adviser. The New Advisory Agreement will become effective as of the date of an internal change in control of the Adviser, which is expected to occur on or about March 1, 2025 (the “Transaction”). If a shareholder purchases shares of a Fund prior to March 1, 2025, the Fund will still be operating under its current investment advisory agreement (the “Existing Advisory Agreement”) between the Trust, on behalf of each of the Funds, and the Adviser. The Existing Advisory Agreement will be terminated upon the Transaction date and be replaced simultaneously with the New Advisory Agreement that has been approved by Fund shareholders.

There are no changes in the investment advisory fees paid by each Fund or the services provided by the Adviser under the New Advisory Agreement. Effective with the New Advisory Agreement, the Trust’s Board of Trustees also approved a new Operating Expense Limitation Agreement wherein the Adviser has agreed to waive its management fees and/or reimburse expenses of each Fund to ensure that the Fund’s total annual operating expenses (exclusive of front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, interest (including interest incurred in connection with bank and custody overdrafts), acquired fund fees and expenses, leverage (i.e., any expenses incurred in connection with borrowings made by the Funds), tax expenses, dividends and interest expenses on short positions, brokerage commissions, merger or reorganization expenses and extraordinary expenses) do not exceed 0.80% of the average daily net assets of the Jensen Quality Mid Cap Fund through March 1, 2027, or 1.00% of the Jensen Global Quality Growth Fund’s average daily net assets through March 1, 2027.

A proxy statement describing the proposals approved by Fund shareholders is available on the Securities and Exchange Commission’s EDGAR database at www.sec.gov.

Please retain this supplement for future reference.

**Jensen Quality Mid Cap Fund and
Jensen Global Quality Growth Fund
(each, a “Fund,” and together, the “Funds”)
Each a series of Trust for Professional Managers (the “Trust”)**

**Supplement dated October 8, 2024, to the Summary Prospectus,
Prospectus and Statement of Additional Information, each dated September 30, 2024**

Eric Schoenstein, a Portfolio Manager of each Fund, and the Chief Investment Officer, Vice President, and a director and owner of approximately 33% of the outstanding shares of the Funds’ investment adviser, Jensen Investment Management, Inc. (the “Adviser”), will retire and sell his entire equity interest to the Adviser on or about March 1, 2025. Effective as of the date Mr. Schoenstein sells his shares back to the Adviser, Mr. Schoenstein will retire and resign as the Chief Investment Officer and Vice President of the Adviser and as a member of the Adviser’s designated portfolio manager investment teams that are responsible for each Fund’s investment decisions. Mr. Schoenstein also will resign from the Adviser’s board of directors.

Pursuant to the Investment Company Act of 1940, as amended (the “1940 Act”), the Funds’ investment advisory agreement with the Adviser terminates automatically upon its assignment, which is deemed to include any change in control of the Adviser. Mr. Schoenstein’s sale of his ownership interest in the Adviser back to the Adviser, when completed, will result in a change in control of the Adviser under the 1940 Act and, accordingly, the Funds’ investment advisory agreement with the Adviser will automatically terminate as provided under the 1940 Act.

Following Mr. Schoenstein’s retirement, the Funds will continue to be managed by the remaining members of the Adviser’s designated portfolio manager investment teams for each Fund. Robert D. McIver, President of the Adviser, one of the Adviser’s Managing Directors and a member of its investment committee, currently has a greater than 25% ownership interest in the Adviser, and his ownership will increase to approximately 38% after the change in control. Accordingly, Mr. McIver will remain a control person of the Adviser.

At a special meeting of shareholders scheduled for November 1, 2024, shareholders of record of each Fund as of August 26, 2024 will vote on a proposal to approve a new investment advisory agreement between the Trust, on behalf of each of the Funds, and the Adviser. The proposed new investment advisory agreement would become effective as of the date of the change in control of the Adviser, which is expected to occur on or about March 1, 2025. There are no changes in the investment advisory fees to be paid by either Fund or the services provided by the Adviser under the proposed new investment advisory agreement. A proxy statement describing the proposal was mailed on or about September 25, 2024 to each Fund’s record-date shareholders and is available on the Securities and Exchange Commission’s EDGAR database at www.sec.gov.

**SUMMARY
PROSPECTUS**

9/30/2024

Jensen Global Quality Growth Fund

Class J Shares JGOSX

Class I Shares JGQIX

Class Y Shares JGQYX

Before you invest, you may want to review the Jensen Global Quality Growth Fund's (the "Fund") prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <https://www.jenseninvestment.com/individual/how-to-invest/>. You may also obtain this information at no cost by calling 800-992-4144 or by sending an email request to funds@jenseninvestment.com. The Fund's prospectus and statement of additional information, both dated September 30, 2024, are incorporated by reference into this summary prospectus.

Investment Objective

The objective of the Fund is long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and Example below.

Shareholder Fees

(fees paid directly from your investment)

Class J	Class I	Class Y
None	None	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class J	Class I	Class Y
Management Fees	0.75%	0.75%	0.75%
Distribution and Shareholder Servicing (12b-1) Fees	0.25%	None	None
Shareholder Servicing Fee ¹	None	0.02%	None
Other Expenses	0.52%	0.52%	0.52%
Total Annual Fund Operating Expenses	1.52%	1.29%	1.27%
Fee Waiver/Expense Reimbursements	-0.27%	-0.27%	-0.27%
Total Annual Fund Operating Expenses after Fee Waiver/Expense Reimbursements ²	1.25%	1.02%	1.00%

and the Trust, on behalf of the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of front-end or contingent deferred sales loads, Rule 12b-1 plan fees, shareholder servicing plan fees, interest (including interest incurred in connection with bank and custody overdrafts), acquired fund fees and expenses, leverage (i.e., any expenses incurred in connection with borrowings made by the Fund), tax expenses, dividends and interest on short positions, brokerage commissions, merger or reorganization expenses and extraordinary expenses), do not exceed 1.00% of the Fund's average daily net assets through September 30, 2025. This operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund's Total Annual Fund Operating Expenses (after the amount of the reimbursement is taken into account) to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

Example

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and either redeem or hold all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund operating expenses remain the same. The operating expense limitation agreement discussed above is reflected only through September 30, 2025. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class J	\$127	\$454	\$803	\$1,790
Class I	\$104	\$382	\$682	\$1,533
Class Y	\$102	\$376	\$671	\$1,510

¹ The Trust's Board of Trustees (the "Board of Trustees") has authorized a shareholder servicing plan fee in the amount of 0.10% of the Fund's average daily net assets for Class I shares. Currently, the shareholder servicing plan fee being charged is 0.02% of the Fund's average daily net assets for Class I shares; however, the fee may be increased to 0.10% of the Fund's average daily net assets for Class I shares at any time.

² Pursuant to an operating expense limitation agreement between the Fund's investment adviser, Jensen Investment Management, Inc. (the "Adviser"),

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may generate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These transaction costs, and potentially higher taxes, which are not reflected in the Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the fiscal year ended May 31, 2024, the Fund’s portfolio turnover rate was 11.76% of the average value of its portfolio.

Principal Investment Strategies

The Fund’s approach to investing focuses on companies determined by the Adviser to have a record of achieving a high level of business performance over the long term and which are, in the opinion of the Adviser, well positioned to maintain competitive advantages and continued high returns on equity and free cash flow. Under normal circumstances, the Fund invests at least 80% of its net assets (plus borrowings for investment purposes) in U.S. and foreign equity securities of companies meeting the criteria for quality and growth as determined by the Adviser. The Adviser considers a company to be a “growth” company if it is determined by the Adviser to have above-average potential for growth in revenue, earnings, or cash flow. Additionally, the Adviser seeks companies that display positive performance in a variety of historical and future performance measurements, relative to the overall U.S. equity market, over a period of time. Examples of such characteristics include:

1. Projected earnings growth based on expected five- to ten-year annual increase in operating earnings per share.
2. Trailing revenue growth based on annualized revenue growth for the previous five to ten years.
3. Trailing earnings growth based on annualized earnings per share growth for the previous five to ten years.
4. The company’s ability to grow its business from free cash flow over an extended period of time.

The list above is not exclusive and there is no single factor that is determinative of whether the Adviser considers a company to be a “growth” company.

The Adviser considers a company to be a “quality” company if it possesses competitive advantages as evidenced by generating a return on equity of 15% or greater for at least ten consecutive fiscal years as determined by the Adviser.

The Fund will invest in equity securities of approximately 25 to 40 U.S. and foreign companies that satisfy the Adviser’s investment criteria of “growth” and “quality”. Equity securities in which the Fund invests as a principal strategy consist of publicly traded companies around the world, including securities issued by corporations located in developing or emerging markets. Generally, each company in which the Fund invests must, as determined by the Adviser: (1) have consistently achieved a high return on equity over the prior ten fiscal years; (2) be in excellent financial condition; and (3) be capable of sustaining outstanding business performance. The Adviser determines on an annual basis the companies that qualify for inclusion in the Fund’s investable universe. These companies are selected from a universe of companies that, as determined by the Adviser, have produced long-term records of consistently high returns on shareholder equity. In order to qualify for this universe, each company must have a market capitalization of \$1 billion or more.

The Fund must always own the securities of a minimum of 15 different companies in its portfolio. The Fund strives to essentially be fully invested at all times in publicly traded common stocks and other eligible equity securities issued by companies that meet the investment criteria described in this Prospectus. The Fund’s investments in other eligible equity securities may include depositary receipts, such as American Depositary Receipts (“ADRs”), European Depositary Receipts (“EDRs”), Global Depositary Receipts (“GDRs”), or other forms of depositary receipts. The Fund typically invests in securities of issuers from at least three or more countries, including the United States, with at least 40% of the Fund’s net assets invested in foreign securities. In making a determination of whether an issuer will be classified as “domestic” or “foreign,” the Adviser will generally look to the location of the issuer’s primary stock listing and/or regulatory filings. However, in some cases, it may consider other factors, such as the location of the issuer’s headquarters and senior management.

The Fund may purchase securities when they are priced below their full values as determined by the Adviser. The Fund may sell all or part of its position in a company when the Adviser has determined that another qualifying security has a greater opportunity to achieve the Fund’s objective. In addition, the Fund generally sells its position in a company when the company no longer meets one or more of the Fund’s investment criteria. In the event that the company no longer satisfies the investment criteria and the failure is due to an extraordinary situation that the Adviser believes will not have a material adverse impact on the company’s operating performance, the Fund may continue to hold and invest in the company.

The Fund is non-diversified, which means that a relatively high percentage of its assets may be invested in a limited number of securities

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose money by investing in the Fund**. The principal risks of investing in this Fund are:

+ *Stock Market Risk*

The market value of stocks held by the Fund may decline over a short, or even an extended period of time, resulting in a decrease in the value of a shareholder’s investment.

+ *Management Risk*

The investment process used by the Adviser, including the Adviser’s valuation models, to select securities for the Fund’s investment portfolio may not prove effective, and the Adviser’s judgments about the attractiveness, value and potential appreciation of the Fund’s investments may prove to be incorrect in that the investments chosen by the Adviser may not perform as anticipated. Certain risks are inherent in the ownership of any security, and there is no assurance that the Fund’s investment objective will be achieved.

+ *General Market Risk*

Certain securities selected for the Fund’s portfolio may be worth less than the price originally paid for them, or less than they were worth at an earlier time.

+ *Recent Market Events Risk*

U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including uncertainty regarding inflation and central banks' interest rates, the possibility of a national or global recession, trade tensions, political events, the war between Russia and Ukraine, armed conflict in the Middle East, and the impact of the coronavirus (COVID-19) global pandemic. The impact of COVID-19 may last for an extended period of time. As a result of continuing political tensions and armed conflicts, including the war between Ukraine and Russia, the U.S. and the European Union imposed sanctions on certain Russian individuals and companies, including certain financial institutions, and have limited certain exports and imports to and from Russia. The war has contributed to recent market volatility and may continue to do so. Continuing market volatility as a result of recent market conditions or other events may have an adverse effect on the performance of the Fund.

+ *Company and Sector Risk*

The Fund's investment strategy requires that a company selected for investment must, among other criteria and in the determination of the Adviser, have attained a return on equity of at least 15% or greater for at least ten consecutive fiscal years. Due to the relatively limited number of companies that meet this investment criteria and thereby qualify for investment consideration, at times the Fund is prohibited from investing in certain companies and sectors that are experiencing strong market appreciation, but have not attained the high level of consistent, long-term business performance that is required for investment consideration by the Fund. As a result, the Fund's performance may trail the overall market over a short or extended period of time compared to what its performance may have been if the Fund was able to invest in such rapidly growing, non-qualifying companies.

+ *Non-Diversification Risk*

The Fund is classified as a "non-diversified" investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). Therefore, the Fund may invest a relatively high percentage of its assets in a smaller number of issuers or may invest a larger proportion of its assets in the obligations of a single issuer. As a result, the gains and losses on a single investment may have a greater impact on the Fund's net asset value ("NAV") and may make the Fund more volatile than more diversified funds.

+ *Foreign Securities and Currency Risk*

Non-U.S. securities are subject to risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. A change in the value of a foreign currency against the U.S. dollar will result in a corresponding change in value of securities denominated in that currency. Issuers of foreign securities may not be required to provide operational or financial information that is as timely or reliable as those required for issuers of U.S. securities. The income or dividends earned on foreign securities may be subject to foreign withholding taxes. The securities of foreign companies are frequently denominated in foreign currencies. To the extent that a market is closed while the markets for the underlying

currencies remain open, certain markets may not always reflect significant price and rate movements.

+ *Emerging Markets Risk*

Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues. Emerging market securities may be subject to relatively more abrupt and severe price declines due to the smaller securities markets, lower trading volumes and less government regulation of securities markets in emerging market countries compared to those in developed countries. Investments in emerging market securities generally are more illiquid and volatile and subject to a higher risk of settlement disruptions than investments in securities of issuers in developed countries.

+ *Large-Capitalization Company Risk*

Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-capitalization companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. The Adviser considers companies with market capitalizations in excess of \$10 billion to be large-capitalization companies.

+ *Growth Stock Risk*

The prices of growth stocks may be more sensitive to changes in current or expected earnings than the prices of other stocks and may be out of favor with investors at different periods of time. Compared to value stocks, growth stocks may experience larger price swings.

+ *Depository Receipts Risk*

Investments in depository receipts may entail the special risks of foreign investing, including currency exchange fluctuations, government regulations, and the potential for political and economic instability.

+ *Regulatory Risk*

Legal, tax and regulatory changes could occur that may adversely affect the Fund's ability to pursue its investment strategies and/or increase the costs of implementing such strategies.

+ *Competitive Risk*

Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments.

Investment Suitability

The Fund is designed for long-term investors who are willing to accept short-term market price fluctuations.

Performance

The performance information below demonstrates the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns for the one year and since inception periods compare with those of a broad measure of market performance. The Fund's past performance information, both before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.jenseninvestment.com, or by calling the Fund toll-free at 800-992-4144.

Jensen Global Quality Growth Fund - Class J Shares¹

Calendar Year Returns as of December 31

¹ The returns in the bar chart are for the Class J shares. Class I and Class Y shares would have substantially similar annual returns as Class J shares because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the classes have different expenses.

The Fund's calendar year-to-date return for Class J shares as of June 30, 2024 was 6.14%. During the period of time shown in the bar chart, the Fund's highest quarterly return for Class J shares was 11.67% for the quarter ended December 31, 2021, and the lowest quarterly return for Class J shares was -12.77% for the quarter ended June 30, 2022.

Average Annual Total Returns	One Year	Since Inception 4/15/2020
For the Periods Ended December 31, 2023		
Class J Shares		
Return Before Taxes	16.98%	12.72%
Return After Taxes on Distributions	16.88%	12.63%
Return After Taxes on Distributions and Sale of Fund Shares	10.11%	10.03%
Class I Shares		
Return Before Taxes	17.24%	12.98%
Class Y Shares		
Return Before Taxes	17.25%	13.00%
MSCI All Country World Index (reflects no deductions for fees, expenses, or taxes)	22.20%	14.51%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on each investor's individual tax situation and may differ from those shown. Furthermore, the after-tax returns shown are not relevant to those who hold their shares through tax-deferred or other tax-advantaged arrangements such as 401(k) plans or individual retirement accounts ("IRAs"). After-tax returns are shown for the Class J shares only and after-tax returns for the Class I and Class Y shares will vary.

Management

Investment Adviser

Jensen Investment Management, Inc. is the Fund's investment adviser.

Portfolio Managers

The Fund is managed by the Adviser's investment team for the Fund, which is composed of:

Portfolio Manager	Year Service Began with the Fund	Primary Title
Eric H. Schoenstein	Since April 2020	Chief Investment Officer and Managing Director
Robert D. McIver	Since April 2020	President and Managing Director
Allen T. Bond	Since April 2020	Head of Research and Managing Director
Kevin J. Walkush	Since April 2020	Head of ESG and Portfolio Manager
Jeffrey D. Wilson	Since January 2023	Portfolio Manager

All members of the Fund's portfolio management team share responsibility jointly and primarily in managing the Fund and making decisions regarding the Fund's investments.

Purchase and Sale of Fund Shares

You may purchase or redeem shares by mail (Jensen Global Quality Growth Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 (for regular mail) or 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53202 (for overnight or express mail)), by telephone at 800-992-4144, on any day the New York Stock Exchange ("NYSE") is open for trading, or by wire. Investors who wish to purchase or redeem Fund shares through a financial intermediary

should contact the financial intermediary directly. The minimum initial and subsequent investment amounts are as follows:

	Minimum Investment Amount	
	Initial	Additional
Class J Shares	\$2,500	\$100
Class I Shares	\$250,000	\$100
Class Y Shares	\$1,000,000	\$100

These minimums may be waived for accounts held in qualified retirement or profit sharing plans, and/or omnibus accounts established by financial intermediaries where the investment in the Fund is expected to meet the minimum investment amount within a reasonable time period as determined by the Adviser. Registered investment advisors and broker-dealers may generally meet the minimum investment amount by aggregating multiple accounts with common ownership or discretionary control within the Fund.

Tax Information

The Fund's distributions will be taxed as ordinary income or long-term capital gains, unless you are a tax-exempt investor or are investing through a tax-deferred or other tax-advantaged arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. You may be required to pay commissions and/or other forms of compensation to the broker-dealer or other intermediaries for transactions in the Fund, which are not reflected in the fee table or expense example. Ask your adviser or visit your financial intermediary's website for more information.
