

IMPORTANT NOTICE REGARDING CHANGE IN INVESTMENT POLICIES AND FUND NAME

**Jensen Quality Value Fund (“Quality Value Fund”)
Jensen Global Quality Growth Fund (“Quality Growth Fund”)
(each, a “Fund”, and together, the “Funds”)
Each, a series of Trust for Professional Managers (the “Trust”)**

**Supplement dated August 1, 2024
to the Prospectus, Summary Prospectus and
Statement of Additional Information (“SAI”)
dated September 30, 2023**

On July 25, 2024, the Trust’s Board of Trustees approved, at the request of the Funds’ investment adviser, Jensen Investment Management, Inc. (the “Adviser”), the following changes to the Funds. These changes are anticipated to be effective on or about September 30, 2024.

Quality Value Fund – Name Change and Investment Policy Change

A change in the name of the Jensen Quality Value Fund to the “Jensen Quality MidCap Fund.” The Adviser believes the name “Jensen Quality MidCap Fund” more accurately reflects the Fund’s current investment objective and principal investment strategies. In connection with the name change, the Fund will incorporate into its principal investment strategies a new investment policy of investing at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of companies meeting the Adviser’s criteria for “quality” and “mid-capitalization.” The Fund did not previously have an 80% investment policy related to its name. The addition of this investment policy will not result in any material changes to the Adviser’s management of the Fund’s portfolio and there will be no change to the Fund’s investment objective.

Quality Growth Fund – Investment Policy Change

A new investment policy for the Quality Growth Fund will be implemented, consistent with the Fund’s name, of investing at least 80% of its net assets (plus any borrowings for investment purposes) in U.S. and foreign equity securities of companies meeting the Adviser’s criteria for “quality” and “growth.” The Fund did not previously have an 80% investment policy related to its name. The addition of this investment policy will not result in any material changes to the Adviser’s management of the Fund’s portfolio and there will be no change to the Fund’s investment objective.

New Non-Fundamental Investment Restriction

The following non-fundamental investment restriction will be applicable for the Funds: “Each Fund may not make any change to its investment policy of investing at least 80% of net assets (plus borrowing for investment purposes) in accordance with the investment focus suggested by the Fund’s name without first changing the Fund’s name and providing shareholders with at least 60 days’ prior written notice.”

Please retain this supplement for future reference.

SUMMARY
PROSPECTUS

9/30/2023

Jensen Quality Value Fund

Class J Shares JNVSX

Class I Shares JNVIX

Class Y Shares JNVYX

Before you invest, you may want to review the Jensen Quality Value Fund's (the "Fund") prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <https://www.jenseninvestment.com/individual/how-to-invest/>. You may also obtain this information at no cost by calling 800-992-4144 or by sending an email request to funds@jenseninvestment.com. The Fund's prospectus and statement of additional information, both dated September 30, 2023, are incorporated by reference into this summary prospectus.

Investment Objective

The objective of the Fund is long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.

Shareholder Fees

(fees paid directly from your investment)

	Class J	Class I	Class Y
	None	None	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class J	Class I	Class Y
Management Fees	0.65%	0.65%	0.65%
Distribution and Shareholder Servicing (12b-1) Fees	0.25%	None	None
Shareholder Servicing Fee ¹	None	0.02%	None
Other Expenses	0.20%	0.20%	0.20%
Total Annual Fund Operating Expenses	1.10%	0.87%	0.85%
Fee Waiver/Expense Reimbursements	-0.05%	-0.05%	-0.05%
Total Annual Fund Operating Expenses after Fee Waiver/Expense Reimbursements ²	1.05%	0.82%	0.80%

¹. The Trust's Board of Trustees (the "Board of Trustees") has authorized a shareholder servicing plan fee in the amount of 0.10% of the Fund's average daily net assets for Class I shares. Currently, the shareholder servicing plan fee being charged is 0.02% of the Fund's average daily net

assets for Class I shares; however, the fee may be increased to 0.10% of the Fund's average daily net assets for Class I shares at any time.

². Pursuant to an operating expense limitation agreement between the Fund's investment adviser, Jensen Investment Management, Inc. (the "Adviser"), and the Trust, on behalf of the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, interest (including interest incurred in connection with bank and custody overdrafts), acquired fund fees and expenses, leverage (i.e., any expenses incurred in connection with borrowings made by the Fund), tax expenses, dividends and interest on short positions, brokerage commissions, merger or reorganization expenses and extraordinary expenses), do not exceed 0.80% of the Fund's average daily net assets through September 30, 2024. This operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund's Total Annual Operating Expenses (after the amount of the reimbursement is taken into account) to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

Example

This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and either redeem or hold all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation agreement discussed above is reflected only through September 30, 2024.

Although your actual costs may be higher or lower, based on these

assumptions, your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class J	\$107	\$345	\$601	\$1,336
Class I	\$84	\$273	\$477	\$1,068
Class Y	\$82	\$266	\$466	\$1,044

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may generate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These transaction costs, and potentially higher taxes, which are not reflected in the Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the fiscal year ended May 31, 2023, the Fund’s portfolio turnover rate was 15.57% of the average value of its portfolio.

Principal Investment Strategies

The Fund’s investment strategy seeks to identify companies the Adviser deems to be undervalued. To achieve its objective, the Fund invests in equity securities of companies that satisfy the investment criteria described below. These companies are selected from a universe of publicly traded U.S. companies that, as determined by the Adviser, have produced long-term records of consistently high returns on shareholder equity. In order to qualify for this universe, each company must have a market capitalization between \$100 million and the capitalization of the largest company in the Russell Midcap® Index, and a return on equity of 15% or greater in each of the last ten years as determined by the Adviser and may include companies with negative equity resulting from debt-financing of large share repurchases. These companies may have unique risk profiles depending on the amount of debt incurred relative to the company’s ability to repay that debt.

Equity securities in which the Fund may invest as a principal strategy consist primarily of common stocks of small- and mid-cap U.S. companies. For purposes of the Fund, the Adviser considers a company to be a small- or mid-cap company if it has a market capitalization between \$100 million and the capitalization of the largest company in the Russell Midcap® Index at the time of the Fund’s investment. The Adviser determines the companies that qualify for inclusion in the Fund’s investable universe on at least an annual basis.

The Fund’s investment strategy is based on applying fundamental analysis and valuation models to this select universe of companies in order to identify investment opportunities. Fundamental analysis includes assessment of the company’s industry, strategy, competitive advantages, business segments, geographic distribution, growth and

profitability, financial statements (income statement, cash flow statement, balance sheet), and the company’s other financial reports. The valuation models are rooted in fundamentals-based investment principles and include discounted cash flow models (for example, determining the present value of expected future cash flows), relative valuation methods (for example, a company’s valuation relative to its own history, its industry peers, or the broader stock market), and ratio methods (for example, a company’s price-to-earnings ratios).

The Fund may sell all or part of its position in a company when the Adviser has determined that another qualifying security has a greater opportunity to achieve the Fund’s objective. In addition, the Fund generally sells its position in a company when the company no longer meets one or more of the Fund’s investment criteria described above for inclusion in the universe of companies in which the Fund may invest. In the event that the company no longer satisfies the investment criteria and the failure is due to an extraordinary situation that the Adviser believes will not have a material adverse impact on the company’s operating performance, the Fund may continue to hold and invest in the company. Examples of such extraordinary situations include a significant acquisition, divestiture, or accounting rule change that results in a significant change to a company’s equity balance and a non-meaningful return on equity number.

The Adviser expects to include in the Fund’s investment portfolio at any time securities of approximately 30 to 50 primarily domestic companies. The Fund must always own the securities of a minimum of 25 different companies in its portfolio. The Fund strives to be fully invested at all times in publicly traded common stocks and other eligible equity securities issued by companies that meet the investment criteria described in this Prospectus.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund. The principal risks of investing in this Fund are:

+ *Stock Market Risk*

The market value of stocks held by the Fund may decline over a short, or even an extended period of time, resulting in a decrease in the value of a shareholder’s investment.

+ *Management Risk*

The investment process used by the Adviser, including the Adviser’s valuation models, to select securities for the Fund’s investment portfolio may not prove effective, and the Adviser’s judgments about the attractiveness, value and potential appreciation of the Fund’s investments may prove to be incorrect

in that the investments chosen by the Adviser may not perform as anticipated. Certain risks are inherent in the ownership of any security, and there is no assurance that the Fund's investment objective will be achieved.

+ *General Market Risk*

Certain securities selected for the Fund's portfolio may be worth less than the price originally paid for them, or less than they were worth at an earlier time.

+ *Recent Market Events Risk*

U.S. and international markets have experienced significant periods of volatility in recent months and years due to a number of economic, political and global macro factors including rising inflation, uncertainty regarding central banks' interest rate increases, the possibility of a national or global recession, trade tensions, political events, the war between Russia and Ukraine and the impact of the coronavirus (COVID-19) global pandemic. The recovery from COVID-19 is proceeding at slower than expected rates and may last for a prolonged period of time. As a result of continuing political tensions and armed conflicts, including the war between Ukraine and Russia, the U.S. and the European Union imposed sanctions on certain Russian individuals and companies, including certain financial institutions, and have limited certain exports and imports to and from Russia. The war has contributed to recent market volatility and may continue to do so. Continuing market volatility as a result of recent market conditions or other events may have an adverse effect on the performance of the Fund.

+ *Company and Sector Risk*

The Fund's investment strategy requires that a company selected for investment must, among other criteria and in the determination of the Adviser, have attained a return on equity of at least 15% per year for each of the prior 10 years. Due to the relatively limited number of companies that meet this investment criteria and thereby qualify for investment consideration, at times the Fund is prohibited from investing in certain companies and sectors that are experiencing strong market appreciation, but have not attained the high level of consistent, long-term business performance that is required for investment consideration by the Fund. As a result, the Fund's performance may trail the overall market over a short or extended period of time compared to what its performance may have been if the Fund was able to invest in such rapidly growing, non-qualifying companies.

+ *Value Style Investing Risk*

The prices of securities the Adviser believes are undervalued may not appreciate as anticipated or may go down, the valuations may never improve or returns on value equity securities may be less than returns on other styles of investing or the overall stock market.

+ *Small- and Mid-Capitalization Company Risk*

The securities of small-capitalization and mid-capitalization companies may be more volatile and less liquid than the securities of large-capitalization companies.

+ *Regulatory Risk*

Legal, tax and regulatory changes could occur that may adversely affect the Fund's ability to pursue its investment strategies and/or increase the costs of implementing such strategies.

+ *Competitive Risk*

Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments.

Investment Suitability

The Fund is designed for long-term investors who are willing to accept short-term market price fluctuations.

Performance

The performance information below demonstrates the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns for the one year, five year, ten year and since inception periods compare with those of a broad measure of market performance. The Fund's past performance information, both before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.jenseninvestment.com, or by calling the Fund toll-free at 800-992-4144.

Jensen Quality Value Fund - Class J Shares¹

Calendar Year Returns as of December 31

¹ The returns in the bar chart are for the Class J shares. Class I and Class Y shares would have substantially similar annual returns as Class J shares because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the classes have different expenses.

The Fund's calendar year-to-date return for Class J shares as of June 30, 2023 was 11.91%. During the period of time shown in the bar chart, the Fund's highest quarterly return for Class J shares was 21.16% for the quarter ended June 30, 2020, and the lowest quarterly return for Class J shares was -23.33% for the quarter ended March 31, 2020.

Average Annual Total Returns	One Year	Five Year	Ten Year	Since Inception 3/31/2010
For the Periods Ended December 31, 2022				
Class J Shares				
Return Before Taxes	-15.78%	7.26%	10.46%	9.18%
Return After Taxes on Distributions	-16.31%	6.40%	8.76%	7.73%
Return After Taxes on Distributions and Sale of Fund Shares	-8.97%	5.56%	8.01%	7.12%
Class I Shares				
Return Before Taxes	-15.57%	7.52%	10.68%	9.39%
Class Y Shares*				
Return Before Taxes	-15.54%	7.55%	10.71%	9.42%
Russell Midcap Total Return Index (reflects no deductions for fees, expenses, or taxes)	-17.32%	7.10%	10.96%	10.97%

*Class Y shares commenced operations on January 15, 2020. Performance shown for Class Y shares prior to their inception (five year, ten year and since inception columns) reflects the performance of the Class I shares, adjusted to reflect Class Y expenses.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on each investor's individual tax situation and may differ from those shown. Furthermore, the after-tax returns shown are not relevant to those who

hold their shares through tax-deferred or other tax-advantaged arrangements such as 401(k) plans or individual retirement accounts ("IRAs"). After-tax returns are shown for the Class J shares only and after-tax returns for the Class I and Class Y shares will vary.

In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax benefit to the investor.

Management

Investment Adviser

Jensen Investment Management, Inc. is the Fund's investment adviser.

Portfolio Managers

The Fund is managed by the Adviser's investment team for the Fund, which is composed of:

Portfolio Manager	Year Service Began with the Fund	Primary Title
Eric H. Schoenstein	Since 2010	Chief Investment Officer and Managing Director
Kurt M. Havnaer	Since 2010	Portfolio Manager
Adam D. Calamar	Since 2013	Portfolio Manager
Tyra S. Pratt	Since 2021	Portfolio Manager

All members of the Fund's portfolio management team share responsibility in managing the Fund and making decisions regarding the Fund's investments.

Purchase and Sale of Fund Shares

You may purchase or redeem shares by mail (Jensen Quality Value Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 (for regular mail) or 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53202 (for overnight or express mail)), by telephone at 800-992-4144, on any day the New York Stock Exchange (“NYSE”) is open for trading, or by wire. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial and subsequent investment amounts are as follows:

	Minimum Investment Amount	
	Initial	Additional
Class J Shares	\$2,500	\$100
Class I Shares	\$250,000	\$100
Class Y Shares	\$1,000,000	\$100

These minimums may be waived for accounts held in qualified retirement or profit sharing plans, and/or omnibus accounts established by financial intermediaries where the investment in the Fund is expected to meet the minimum investment amount within a reasonable time period as determined by the Adviser. Registered investment advisors and broker-dealers may generally meet the minimum investment amount by aggregating multiple accounts with common ownership or discretionary control within the Fund.

Tax Information

The Fund’s distributions will be taxed as ordinary income or long-term capital gains, unless you are a tax-exempt investor or are investing through a tax-deferred or other tax-advantaged arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. You may be required to pay commissions and/or other forms of compensation to the broker-dealer or other intermediaries for transactions in the Fund, which are not reflected in the fee table or expense example. Ask your adviser or visit your financial intermediary’s website for more information.
